

Training Program To Prepare FACTORY TRAINING

After completion of a product category training of a specific product e.g. Shampoos or Cream (all types) or any other product. The training into the factory starts. Factory training is an integral part of a training program where production batches are taken up and participant will get a complete knowledge of production of different cosmetic products. Factory training is important to get a complete knowledge of different cosmetic products at production level and to explore yourself.

These training programs are a great way to start new profitable cosmetics business. Participants of these training programs will have practical experience with their own hands. They will come to know trade secrets and formula secrets which may be used to start a highly profitable cosmetics industry or beauty business.

The formulas which will be shared in the training program are 'Commercially Proven' Marketable industrial formulas & not just Internet recipes which may or may not work.

Participants will receive a wealth of important information on the basic raw materials that are used. In addition to the information published in this pack, InMc instructors will share several 'insider-secrets' that are not published in any of the InMc literature. Participants will receive technical Document, as part of the training material and a wealth of important information on the basic raw materials, packing materials, machines & their sources etc.
